For many years, the 36 Offshore has reigned as Yellowfin's most popular model, and it's easy to see why. The 36 blows away the competition when it comes to running offshore in a chop, due to its twin-step hull design and its near-perfect blend of balance, and efficiency and it might be the driest ride on the water. The 36 runs great with triple outboards and is highly customized to create the perfect boat for everything from hard-core offshore tournament fishing to weekend family sandbar outings, and everything in between. That's why so many savvy boaters consider the 36 Offshore the perfect solution to their boating, fishing, and diving needs: It simply does everything well.
