Category: Cruiser-Racer
Condition: Used
Model Year: 2008
LOA: 32' (9.75m)

Fuel Type: Diesel
Hull Material: Fiberglass

HIN/IMO: TCM33095F708

Engines/Generators

Summary/Description

How often do you find a one owner boat that's been in heated storage virtually its entire off season life?

We ordered this C&C 99 new for the current owners in the fall of 2007. She was a unique boat right out of the factory door with a beautiful Mahogany Awlgrip hull sides.

Launched in the summer of 2008, we believe her to be one of the last few built in Ohio. These boats were extremely well engineered with epoxy hulls, all deck mounted hardware fastened into threaded backing plates, custom carbon mast and more.

Tim Jackett designed a 32' cruiser/racer that will go toe to toe with flat out racers like the J/92. She's quick, but with all the comforts of a cruising boat including a cockpit shower.

See full specs on this one under Additional Information.

Having owned C&C 99's for three summers and cruising them with three small children plus racing the design in local regattas, I can speak to the attributes of this boat readily.

Today she'd probably build out for US\$300,000...stored indoors with recent hull awl grip, newer sails, updated electronics and a deep inventory of extras, this C&C 99 is not to be missed and represents incredible value for a performance oriented couple or family who also like amenities that allow for weekending in comfort.

View this "99" inside in her heated storage building by appointment.

Construction

Mahogany awlgrip w clearcoat(2021) epoxy hull; white fiberglass non-skid decks; Oyster white cove stripe; Oyster white triple boot stripes(2021); Micron CSC black bottom; fin keel; balanced spade rudder; bow & stern pulpits; double lifelines w/2 gates; wheel steering (48" option); emergency tiller; two hatches; opening ports.
