Engine 1

Ford Lehman

2715E

Inboard

120HP

89.48KW

Fuel: Diesel

Hours: 2000

Year: rebuilt circa 2005

Location: Middle

Generator 1

Onan

5KW

Summary/Description

The ALBIN 36 remains a popular trawler with those who enjoy the look and feel of a traditional trawler-style boat and the economy and range of single diesel propulsion. A very handsome design and profile, the 36 Albin features a conventional double cabin layout with a full teak interior.

An in-line galley is located in the salon along with a complete lower helm station and pocket door for easy deck walkaround access. The L-shaped convertible settee is to starboard. Both the aft master and forward staterooms have private heads with a tub/shower combination in the master stateroom head. Construction is solid fiberglass and a full-length skeg protects the running gear. Topside the flybridge will comfortably seat 8 and comes with mast and boom. Finished with an abundance of exterior brightwork, the teak decks, rails, cabintop doors, and hatches all add much to the boat's appearance. Additional features include a teak swim platform, a teak parquet cabin sole, bow thruster, electric windlass, Onan 5 kW genset, davits and dinghy, washer/dryer, and more..

Please note that a new Mermaid Model M16RH AC Unit (16,500 BTU) unit will be installed in Spring 2024 and will have a 5 year transferable warrantee starting in January 2024.

Powered by a single 125 HP Lehman Diesel, this freshwater 36 Albin Trawler will cruise at 6.5-7.0 knots for a 750-800 mile cruising range while only burning approximately 1.5 gallons per hour.
