Engine 1

Perkins
6 cylinder
Inboard
83HP
61.89KW
Fuel: Diesel
Hours: 3000
Year: 1965
Location: Middle

Summary/Description

Laja is unique in that she has spent her whole life in the upper Great Lakes. She has had 2 owners, both of whom spared no expense at keeping her in pristine condition. De Vries Lentsch is known for superior craftsmanship & Laja does not disappoint. Luxurious teak joinery work throughout & custom fittings of high quality. The Sitka spruce spars are highly varnished & in perfect shape. The design is full keel, steel plate on steel frames & stringers. The deck is teak planked over steel. A bow thruster enhances handling in marina tight quarters. Laja has been kept in mostly original condition with obvious upgrades to electrical & mechanical systems including a Fisher-Panda generator. A SidePower bow thruster was added as well. The layout features a pilothouse with inside steering & a lounge & dinette area. Large windows offer excellent visibility & ventilation. Step down forward into the U shaped galley with head opposite & spacious forward cabin with 2 single large berths. Ample storage lockers & drawers. From the pilothouse aft is the cockpit with wheel steering & binnacle. A private aft cabin is accessed from the cockpit with en suite & large berths.
