Summary/Description

The Bristol 29.9 was designed by Halsey Herreshoff, grandson of the famous Captain Nat Herreshoff. This a nice example with an unique and highly desirable furling boom, SeaFrost refrigeration, Espar diesel heater, and a reliable Yanmar 2QM15 diesel engine w/ low hours.

The Bristol 29.9 has a spacious and cozy interior that can sleep up to six people. The boat has two factory cabin layouts that were available, differing in the galley location. In one layout, the galley is located on the port side of the main cabin, opposite the dinette settee that converts into a double berth. In the other layout, the galley is located aft on the starboard side, next to the navigation station and the quarter berth. The boat has plenty of storage space in lockers, drawers, and shelves throughout the cabin. There are ten cabin ports, four of which open. The boat also has an electrical system with 12-volt lighting and outlets, as well as shore power connection and battery charger.
