Simrad Chart plotter  
Custom Tow Ring  
Underwater Lights  
Fish Finder

**Manufacturer Provided Description:**

Live Free offers an attractive option to navigators in search of a large "seaworthy and modern" owner's boat. With her new visual identity, rigging and hull design, she provides increased performance, comprising a unique brand signature. This vessel's elegance seduces thanks to the beveled shape of her hulls, generous volumes and panoramic views, more than ever enhanced.

**EXTERIOR : COMFORTABLE AND FUNCTIONAL**

A flybridge with two secure accesses and a helm station provides perfect visibility. And behind the helm station, a huge modular recreation area conceals a storage area large enough to store all the cushions.

A large open cockpit facing out to sea, large stern skirts enable easy access to the boat and a large modular dining area with removable bench seats to welcome children and adults alike.

A second cockpit for further enjoyment of the foredeck with dual function: seating or deck chair position, flush with the forward trampoline.

Vast storage space under most of the cockpit and flybridge seats.

**INTERIOR : GENEROUS VOLUMES AND LUMINOSITY**

An innovative saloon concept on two levels, providing two separate areas: a large galley that opens onto the cockpit on one side, and a slightly elevated lounge area for enhanced panoramic vision, which can easily be turned into a dining area.

An innovative interior design, with a new, elegant and elaborate custom wood finish.

Superb communication between the interior and the exterior: the central panoramic windscreen is retractable, which is ideal for ventilation of both the saloon and the cockpit. This enables interaction with the forward area.

Outstanding natural light in the aft cabins, fitted with panoramic glazing and large hull portholes in the showers and bathrooms.

Volume and comfort in the hulls with particular attention to storage space: cabins with Island bed berths forward and aft, large storage volumes, hanging lockers, and open bookcases.

Large fresh and black water tanks located under the floorboards, thus providing considerable space.

**NEW GENERATION RIGGING: PERFORMANCE AND SIMPLICITY**

The decision to position the mast step further aft, which stems directly from VPLP's experience in competitive sailing, provides this catamaran with multiple advantages: A self-tacking jib for simplified maneuvers.

The main sail, with a high aspect ratio, enables the capture of better airflow in the upper parts of the sail for optimized performance. The re-centering of weight, thanks to aft positioning of rigging, considerably reduces the boat's pitch.
