Heads: 4

Fuel Type: Diesel

Hull Material: Fiberglass

Displacement: 12.79 tonnes

Fuel Tank: 211 gal Fresh Water: 211 gal

HIN/IMO: XXXXXXXXXXXXX

Stock #: 486037

Engines/Generators

Engine 1

VOLVO

55HP

Fuel: Diesel

Hours: 3599

Year: 2017

Summary/Description

Used Sail Catamaran for sale

Coming from the R&D department of the Catana Group, the BALI 4.5 invites you to enjoy sailing with an open space feel. By not following the norm, the BALI 4.5 is quite an innovation: panoramic views, great natural ventilation, large forward cockpit with removable tables and sundeck, standard or fly bridge helmsman area, elegant design and finishing, great internal and external living spaces, unique level of self sufficiency, unbeatable comfort and seagoing qualities and not to mention the performance and safety that you would expect from a Catana.

A great forward cockpit with a seating area, removable tables and a great sundeck (18 m²) instead of the traditional trampoline.

An aft cockpit with a seating area, LED lights and a foldable table. An additional sundeck on the coach roof. Comfort: enjoy the best of what cruising has to offer a unique freshness of the saloon with large, fully retractable windows an exceptional amount of daylight with a panoramic view from the saloon equipment level that will satisfy the most demanding sailors

Elegant design and interior décor arranged to provide you with a stay that is as pleasant as your own home

Practicality: Innovations that leave nothing to chance

A high level of self sufficiency with a 800 l fresh water tank that can be combined with a water maker that provides 200 l of fresh water an hour, fuel tank of 800 l, 615 l American type fridge with an icemaker and a chilled water dispenser and a generator. Along with that, all necessary household appliances are at your disposal and that includes a dishwasher, a washing machine, an espresso maker...

Sailing: CATANA technology, quality and performance

BALI 4.5 Open space is built in the Catana shipyards in France, using the best quality materials. Using the closed-cell PVC foam sandwich construction and hull fabrication by infusion ensure rigidity, durability, and weight reduction. The design and the height of the nacelle allows a better passage through water and with that a higher level of comfort and safety. With the mast moved further aft there is more space for a larger self tacking jib and with the self tacking system, greater manoeuvrability. The sail area and weight ratio is the biggest in its class and that brings the performance that you would expect from a Catana catamaran.

Layout & Accommodations

Four cabins and 4 dry heads

Berth in portside forepeak

Berth in starboard forepeak

Blackout curtains at each cabin, heads & corridors
