Summary/Description

Price Reduced! Best value in the market on a 355CC. All offers strongly encouraged. This Everglades 355CC is a very nice example of this premium brand with lots of upgrades and updates. The boat is powered by triple Yamaha F300XCA motors, the preferred power package on the 355CC for rugged reliability. These motors have given the owners outstanding service in the three years since they purchased the boat. During their ownership, the vessel have seen the addition of the custom upper station with electronics. Owners have purchase a larger boat, which is the reason for the sale of this 355CC. The boat has been freshly detailed and is standing tall.

Broker Comments

I assisted the current owners with the purchase this 355CC back in 2019. The boat has been an outstanding fishing & cruising platform. The owners have taken exceptional care of the boat and have maintained the vessel to a high standard. The boat has been actively used to the tune of about 450 hours a year and the engines have performed flawlessly. This boat shows very well and the pictures do accurately represent her current condition. Owners have moved up to a larger center console.
