Engine 1

Suzuki/Yamaha/Mercury

Summary/Description

The hull sides and deck boxes are filled with foam and coated with vinyl ester to prevent osmotic blistering.

Customizable Boat: Pan Handle

Sea Pro 172 Bay

Suzuki/Yamaha/Mercury

The hull sides and deck boxes are filled with foam and coated with vinyl ester to prevent osmotic blistering. This setup ensures a quieter ride, improves insulation for fish or cooler boxes, and enhances overall safety. Additionally, each model features a single-piece finished and gel-coated stringer system, which is bonded to the hull using Methacrylate for a robust chemical bond. Furthermore, all stringer systems are completely gel-coated to prevent mold and facilitate easier maintenance.

Standard Features

- Simrad touchscreen electronics
