Summary/Description

This New Axopar 45 XC Cross Cabin powered by triple Mercury V8 300 Verado engines can cruise at speeds between 19 to 35 knots while remaining in this most cost-effective range. The advanced infusion lamination technology is utilized to create a lighter and more fuel-efficient hull, deck, and stringer

Coming Soon: Fort Lauderdale/ Ref 455839

This New Axopar 45 XC Cross Cabin powered by triple Mercury V8 300 Verado engines can cruise at speeds between 19 to 35 knots while remaining in this most cost-effective range. The advanced infusion lamination technology is utilized to create lighter and more fuel-efficient hull, deck, and stringer systems. The new series will definitely appeal to boaters looking for the same adventurous feel as the smaller Axopar models, but with more capacity and deck room.

Standard features include features such as an Intelligent Steering Module that controls the bow thruster, trim tabs, and audio, innovative Simrad navigational touchscreen displays with a custom-built Axopar User Interface, the gullwing doors that forge a seamless connection with the outdoors, and an adjustable wet bar and table in the cabin for more flexible use of space. Open the dual electric sliding canvas roofs and double sliding doors to let in the sea breeze and the sun's warming rays. Alternatively, close the doors and roofs to relax in the shade, or instantly be protected from the elements.

*Please note, stock images included. Some features depicted may not be included.

We're proud to showcase Axopar Boats at all our Florida showrooms, including:

Ft. Lauderdale, Palm Beach, Stuart, Sarasota, and Tampa Bay.
