Summary/Description

This 23 electric Cuddy Cabin has everything you need to spend a great day on the water with your family or friends.

Available in Store: Fort Lauderdale

This 23-electric Cuddy Cabin has everything you need to spend a great day on the water with your family or friends. Its comfortable and luxurious lounge area can accommodate up to eight people and there is plenty of space left to move around. The cabin is still spacious enough to be equipped with a practical galley kitchen and a toilet. The bathing platform is now even more accessible with two side entrances and it also boasts a unique extendable sunbed on the stern.

The hydraulic hardtop cover made of carbon fiber and featuring sliding doors, which is currently the greatest option on the market, is without a doubt the boat's most alluring and unmistakable feature. In less than 30 seconds, the roof may be closed up to 30 meters away, totally shielding the boat from all outside effects including rain, leaves, and other debris.

UNIQUE PATENTED HYDRAULIC HARD TOP WITH 5 YEAR LIMITED WARRANTY

The most attractive and recognizable feature of the boat is definitely the hydraulic hardtop roof made of carbon fibre and including side sliding doors, which is currently the best solution available on the market. The roof can be closed at a distance of up to 30 meters in less than 30 seconds, so that the boat is completely protected from all the external influences, such as rain, leaves and other dirt.

SUPERIOR FUNCTIONALITY

EASY ACCESS

BOW DESIGN

As the bow is placed into teak wood frame, relatively comfortable movement is enabled, while the stainless steel fence serves for better safety. The bollards are placed immediately underneath the fence, which makes them easily accessible with stainless steel protection that protects the deck from potential rope damage. The electric anchor winch with 30 m long stainless chain and 5 kg anchor is well hidden and provides easy and simple anchoring.

EXTENSIVE LOUNGE AREA

The well-designed cockpit area offers an impressive amount of space and comfortably seats up to 10 persons. There is a place for a small, but well-organized kitchen with a 30l or 36l stainless steel pull out fridge or a 64l classic fridge.
