Summary/Description

For Sale

Viking's 64' Viking Convertible yacht continues to reaffirm Viking's commitment and expertise to build a better boat every day. This four-stateroom, three-head, fishing machine is poised to become another best-in-class superstar on the tournament circuit and the new standard in luxury, accommodations, and comfort.

The 64's unbroken S-shaped sheer flows gracefully from bow to stern. The swept-back black-masked windshield, pronounced hull and deckhouse feature lines and distinctive hull-side vents that give the 64 an unmistakably Viking profile that is recognizable and revered around the world.

The result of thousands of hours on the tournament trail, the 180-square-foot cockpit is clean, streamlined and maximizes freedom of movement, with easy access to storage and service areas. Standard equipment is substantial. Flush rod holders; fresh and raw-water wash down systems; transom fish box with live well, rounded coamings with indirect rope lighting below; side lockers for tag stick and gaff storage; quick disconnect fitting for oil changes for the engines, transmissions and generator; port and starboard in-deck insulated fish and stowage boxes and optional in-deck live well; and stereo speakers are all part of the package. The centerline lazarette hatch (available with power actuation) opens nearly 90 degrees for full viewability and access to the available Seakeeper 26 as well as the steering, trim tabs, and drain pumps. An aluminum backing plate is laminated into the cockpit sole for a fighting chair, rocket launcher or table.

The observation mezzanine is designed to keep guests cool and dry thanks to the flybridge overhang, as well as clear of the crew working in the cockpit. For those in warm climates, mezzanine air conditioning is offered. To starboard, freezer and cooler space is provided under the mezzanine seating. A centerline hatch opens with stainless steel gas pistons for excellent access to the engine room. The port side holds more cooler storage and a tackle cabinet with drawers.

With a push of a button, the electric-powered salon door slides open, revealing the 64's spacious salon. Like its two most recent predecessors, the Viking 54 and 58, our new convertible features an open layout with a walkway that extends in a straight line from the salon all the way to the forepeak, heightening the sense of depth and space. The port-side dinette comfortably seats four adults.

The flybridge mirrors other new generation Vikings with a space-saving streamlined walk-around center console. The beautifully crafted fiberglass module neatly holds a recessed black acrylic panel for flush-mounted all-glass electronics displays. The helm is also equipped with Bocatech switching, recessed radio boxes with split lids, a custom helm pod with single-lever electronic controls, stainless steel steering wheel, trim tab switches and electronic trolling valves. The flybridge layout makes excellent use of space, providing a variety and abundance of seating, and storage.

The 64 will also be available as an Enclosed Bridge model, featuring Viking's signature design that includes a complete forward control station, its own luxurious salon with walnut cabinetry and HD TV, stairs from the salon to the bridge, and a docking station on the aft deck.
