Location: Starboard

Summary/Description

For Sale

The NEW 82 Viking Convertible Yacht - The five-stateroom yacht proves again Viking is the leading builder of the world's biggest convertible sportfishing yachts. Raising the bar again, the Viking Yacht Company is proud to announce its latest large sportfishing yacht - the 82 Convertible. The five-stateroom, six-head world-traveler builds upon the tremendous success of the Viking 80, pushing the genre to new heights of excellence. The Viking Yacht Company, which celebrates its 60th anniversary this year, has delivered more than 110 convertibles over 80 feet. The first-generation 82 Convertible was introduced in 2009 during some of the toughest economic times in recent history, and still 27 boats were sold. And now here comes the new 82, proving once again that Viking is the leader in the design, development and production of the biggest convertible sportfishing yachts in the world. The 82 will be offered in three different models - open bridge, enclosed bridge and sky bridge. Hull No. 1 will be an open bridge model with a Pamlico Blue gelcoat and a custom tuna tower from the Viking subsidiary Palm Beach Towers.

Manufacture provided description and photos.
