Summary/Description

The name [STALLION] well defines what a 9X Pershing stands for. The 9X is a luxury sport yacht produced by Pershing, an elite Italian yacht manufacturer.

The name [STALLION] well defines what a 9X Pershing stands for. The 9X is a luxury sport yacht produced by Pershing, an elite Italian yacht manufacturer. With a length of around 92 feet (28 meters), it's known for its sleek and modern design, high-speed performance, and luxurious features. The yacht offers a combination of (2) powerful 2638HP MTU engines, (2) Seakeeper 9's, cutting-edge technology, and well-appointed interiors providing a comfortable and stylish experience for its owners and guests. The Pershing 9X is renowned for its commitment to innovation and quality in the world of luxury yachting. This model also combines elegance and technology to maximize on board pleasure. The sun deck offers extremely generous spaces for relaxing thanks to a lounge dinette and a large sun pad. The interior décor boasts the best Italian brands, such as the leather-upholstered "Interior in Motion" helm station which celebrates the partnership between Pershing and Poltrona Frau.

This 9X Pershing is built for the global market thanks to the shore power frequency converter on board, allowing you to enjoy the boat anywhere in the world. This allowed the owner to take delivery of the vessel in Europe last year and enjoy STALLION throughout the summer season in the MED. Since then, STALLION has made her way over to the US and has been cruising the East Coast.

STALLION is currently being operated and maintained by a seasoned and experienced captain with in-depth knowledge of the Pershing brand. This boat offers a manufacturer warranty until November 2023 with transferrable engine warranty until 2027.

This Pershing is standing tall and ready for its new owner to take charge and enjoy all the thrills of owning a Pershing.
