Summary/Description

For Sale

With the overwhelming success of the V Series high performance luxury center consoles, Viking Yacht Company introduces the next chapter of the V series with the evolution of the new Valhalla Boatworks V-46.

The Valhalla 46 takes the V Series to an entirely new level, broadening its appeal through additional accommodations and amenities while maintaining its fishing boat DNA

Like its stablemates, the V-46 is an outboard-powered center console that utilizes the patented Michael Peters Yacht Design (MPYD) double-stepped hull. The V-46 possesses the same signature design traits (S-shaped sheer, doubles chines, tumblehome transom bustle), aesthetic enhancements (teak toerails and transom) and 360-degree fishing prowess of the V Series.

This Valhalla's significant length (46' 7") and beam (13' 4") allow for a massive console that functions as an air-conditioned cabin. Through the port-side console door, a powder-coated pedestal with teak stair treads leads to an inviting living space. You'll immediately notice the headroom (6' 7") and a free-flowing open layout that's filled with natural light flowing through four shapely portlights. Forward, a dinette with U-shaped seating and bolstered backrest surrounds a drop-down table that converts to a queen berth. On the starboard side is the galley, which features a polished Corian countertop, stainless steel sink, brushed nickel and chrome faucet, two-burner recessed stove, refrigerator/freezer, microwave oven, and cabinet storage. Directly aft of the galley is the private head with a molded-in vanity with freshwater sink and faucet, toilet, and shower.

The head provides access to the machinery room, which houses the 8 kW diesel generator, batteries and distribution panel, battery charger, hot water heater and provides access to helm electronics

The V-46 was also designed and engineered with a mounting structure molded into the vessel's resin-infused structural stringer grid for the installation of an available Seakeeper SK 6.

The V-46 can be powered with either quad Mercury V8 450Rs, Mercury Verado 400s, or Yamaha V8 425s. Both packages utilize fly-by-wire electric power steering and are available with joystick control and GPS station-keeping systems. With a nearly 700-gallon fuel capacity, the V-46 has the legs for long trips to the canyons or extended cruising and diving in the islands.

Call today to speak to one of our Valhalla Boatworks specialists on this new model or any other V-series model of interest.
