Summary/Description

Motor Yacht LE DUC is a 90' (27.6m) yacht for sale, built and launched by yacht builder Sanlorenzo and delivered in 2022. This vessel sleeps up to 8 guests in 4 staterooms and has accommodations for 4 crew in 2 cabins.

Overview

An exclusive opportunity presents itself to acquire an almost brand-new Sanlorenzo 90 Asymmetric yacht with VAT already paid! Sanlorenzo delivered LE DUC in 2022, and it has been sparingly used with only 135 hours on the engines and 240/200 hours on the generators. The master cabin and one guest cabin have seen light use, while the remaining guest cabins and crew quarters remain protected by plastic wrapping.

Loaded with all available options, LE DUC boasts a 4-cabin layout motor yacht featuring a Full-Beam Master Cabin on the main deck and three mirror cabins on the lower deck. As part of the Asymmetric Series, LE DUC provides a more spacious interior and sundeck compared to other yachts in the Sanlorenzo range. The main salon is adorned with a floor-to-ceiling window, offering a breathtaking view outside. The abundance of mirrored surfaces enhances the interior volume, creating a play of light that results in a unique and natural flow of light throughout the yacht's interior.

The flybridge is very well appointed with an opening roof, an outside helm station, and a plancha completed with an ice-maker and sink. The flybridge gives direct access to the bow where you can find an extra spacious sunbed and access the forward seating including a table for ultimate privacy.

The major advantages of the Asymmetric are the easy flow for the guests and crew, as well as more interior and exterior space. The hydraulic swimming platform makes it easier to launch the tender and access the water or just relax without fully immersing yourself.

Key Features

- As a new SL90 A with only 135h on the engines and 240/200h on the generators
- Never used guests & crew cabins
