## Summary/Description

"Victory" is very well equipped in immaculate condition with only 76 hours on the engine! It's been used twice as a showboat! The model year 2022 for Nimbus 365 offers some exciting modifications that will improve the look of the boat. The side cabin portlight has changed shape and doubled in size.

"Victory" is very well equipped in immaculate condition with only 76 hours on the engine!

It's been used twice as a showboat!

The model year 2022 for Nimbus 365 offers some exciting modifications that will improve the look of the boat. The side cabin port light has changed shape and doubled in size.

The 365 is an international award-winning boat with superior design qualities - where large spaces for socializing and leisure activities have been combined with excellent long distance cruising characteristics. The 365 is all about functional design and is built for the conscious boater who appreciates simplicity, comfort and safety, but also for families who want to enjoy a perfect weekend cruise. The most eye-catching feature of the 365 is its exterior profile. The new 365 has a more modern design language, with sportier contours inherited from its sisters, the 305 and 405. The intention has, of course, been to provide the boat with an appearance more in harmony with the rest of the Coupé range, but above all it is a matter of improved functionality.
