Engines/Generators

Engine 1

Mercury

Verado

Outboard

300HP

223.71KW

Fuel: Gas/Petrol

Year: 2020

Summary/Description

Just serviced and ready to go, this Nimbus C9 (Commuter) is the perfect boat for all conditions, especially in the Bay Area!

The fully enclosed accommodations completely protect occupants from the Bay Area's windswept conditions, whether you are planning a quick trip to Sam's from the City Front or a trip up to the Delta. The slide-open glass sunroof and side doors let in all the light and just the right amount of air that you desire. The bow-thruster, doors on each side and the walk around decks make docking and access a cinch. While the bow and stern make great outdoor social gathering points.

The C9 has really sweet accommodations below, with a private head and shower. She is a great weekender for a couple. Pilot and copilot seats in the main salon swivel to make a comfy protected area to seat up to 5 around the table, which can also be mounted outside.

The unique stepped hull and 300 HP V8 Mercury Verado Outboard both provide great performance and ensure a very smooth ride, while the Scandinavian design and teak decks highlight a modern look that is pure and stylish.

Full Description

About the C9:

Nimbus Boats provides the Commuter 9 (or C9 for short). The idea behind using a boat as a commuter vessel for everyday activities isn't new, but it's gaining popularity as coastal communities like those in Florida or the Pacific Northwest become more crowded and traffic worsens. The new Nimbus C9 is a functional and comfortable boat with the quality and safety that owners expect from the Swedish-brand. Nimbus is known for going above and beyond safety standards to create the best possible vessel on the water. So if your C9 will be transporting your precious cargo from dock-to-dock, rest assured that Nimbus put that little extra into its quality to ensure you'll get there quickly and comfortably. Aimed at the boat buyer seeking a fast commuter boat, but also wants the flexibility to use it beyond just transportation needs, the Commuter 9 delivers wonderfully.

"The C9 is a contemporary commuter vessel designed to make daily life onboard as simple and comfortable as possible, irrespective of whether you are travelling alone or with passengers. We have prioritized freedom of movement over interior volume in order to make it as easy as possible to board, move freely around the vessel and disembark. As a starting point for the design process we sought inspiration and DNA from our Max II Coupé and Paragon Series," explains Joacim Gustavsson, chief designer at Nimbus Boats Sweden AB. The C9 puts this functionality to the forefront by designing extra-wide gangways for moving about the boat, the greatest possible onboard load capacity, and large sliding doors so that more than one person can enter and exit the boat at one time.

At first glance, the Nimbus C9 simply looks like it is what it does best - a boat to move you and your passengers to destinations with a purpose. Always being practical, the designers at Nimbus also opted to give owners the option of using the C9 recreationally as well. It is a boat, after all. The overnight accommodations on board can sleep three adults and two children in the spacious fore-cabin as well as the salon which converts to a bed. "It is important to us that we are able to meet the needs and wishes communicated to us by our customers, the people who use their boats to get around on a daily basis. This is why we have created a modern commuter, for those who travel in typical Nordic weather throughout the year. However, it would be remiss not to point out that this remains a leisure craft and should not be compared with models built for professional boat categories," says Jonas Göthberg, commercial director at Nimbus.
