Bow Thruster: Yes

CE Certified: Yes

Engines/Generators

Summary/Description

The 110 Century line was created to commemorate the centennial celebration of Astondoa Yachts.

Astondoa 110 Century

Celebrating 100 years of shipbuilding excellence and the launch of thousands of yachts, Astilleros Astondoa designed the new Century line. This yacht range is a declaration of classic principles for a new era luxury yachts.

The dimensions of the Century 110' make it extremely easy to maneuver, yet she boasts many megayacht features. This model was designed for large groups of family or friends who want the full yachting lifestyle experience.

The Century 110' has a sporty, modern style with bold and balanced lines. Yet it is the onboard features that make owners and guests never want to disembark. A retractable sunroof on the flybridge opens with the touch of a button ensuring maximum comfort throughout the day.

The outdoor galley was designed to facilitate entertaining guests. It is equipped with a barbecue grill, wet bar, and a fresco dining area, the Century 110' model encompasses the entire yachting lifestyle.

There is storage space for two, three-seat PWC at the bow plus the garage can accommodate a Williams jet tender.

INTERIORS

The interiors of the Century 110' were created by Cristiano Gatto in collaboration with Astondoa's design department, yet it is fully customizable for every owner.

This yacht strikes harmony between opposing elements. Upholstered and natural oak furnishings are juxtaposed by high-quality materials such as leather, glass, and polished stainless steel. Neutral tones are accented by bright colors. Rich textures make the interiors inviting and contrast with the high-tech equipment.

The design is clean, organized, modern, and extremely luxurious. The layouts of the saloon and cabins were carefully optimized to provide the highest level of comfort and make the vessel noticeably spacious.

Technology is an integral part of this sleek yacht and makes life onboard genuinely comfortable. For example, LED lighting is installed throughout and television screens are ingeniously hidden from view behind glass walls. Plus, the state-of-the-art kitchen appliances make service a breeze for the main dining table which seats 12 guests.

The full-beam owner's suite is located amidship on the main deck granting panoramic views. This private haven gets ample natural light from windows on both sides of the cabin. Plus, the large ensuite head has his and hers sinks and a spacious shower.

The Astondoa Century 110' is equipped with two MTU 16V 200 M86 engines, which offer unbeatable performance given their size and displacement. Maximum speed is 24 knots and cruising speed is about 20 knots. There is the option to install two M96 engines as well.

Trade-in welcome. G Marine Yacht Sales offers to ship worldwide
