Summary/Description

2004 Grady White 300 Marlin - MIZ LYNNE

2004 Grady White 300 Marlin

The Marlin 300, the highly successful model that's been in the Grady-White lineup since 1989. The 300 still rides on the SeaV2 hull that Grady introduced back in 1989 as a solution to softening the ride of smaller fiberglass boats in rough water. The anchor is dropped and retrieved through the center of the pulpit instead of off a roller at its tip. This is a typical big-boat feature, along with 316 stainless steel latches and hardware. Wonderfully equipped boat that's extremely popular with fishing or cruising! This boat has a Garmin plotter, a Furuno radar, a Raymarine autopilot and a Icom VHF radio. She's ready to fish!
