Location: Starboard

## Summary/Description

### 70 ft 2011 Azimut 70 Flybridge

This 2011 Azimut 70 Fly is a must see! Don't miss your opportunity to own one of the most popular and respected Azimut yacht models produced to date, for this winters boating season! She is the lowest priced on the market, in the best condition for its model year range, and easy to see in Fort Lauderdale. Plus, the yacht is loaded with extras including air conditioning, 2 x 9kw Generators, 2 x Seakeepers, hydraulic swim platform, hydraulic gangway, teak all over the boat, both bow and stern thrusters, Raymarine Electronics packages both on the main deck and flybridge, FLIR, Satellite TV, and many more. She has been professionally maintained, and never chartered.

An equilibrium of power and presence, the 70 Fly combines a considerable stature with avant-garde ingenuity, artfully masquerading volume through a sporty design and grand glass surfaces. The captivating streamlined exteriors give way to lofty interior ambiances that express stately modern Italian design. Size, sportiness, and comfort, all race to smoothly combine and deliver an ocean-bound adventure conceived for the most demanding yachtsmen.

Step on board and enter the spacious cockpit with a large dinette for al fresco dinning complete with storage, and an outdoor entertainment center for watching television.

Walk through the large floor to ceiling window doors into the yachts saloon where you encounter a large living area with "U" shaped sofa, a coffee table, television, and large midship windows allowing a lot of natural light into the vessel while also giving you a fantastic view of your surroundings. Walk up the small stairs into the dining area with the galley starboard with pass through for easy service and a more open feel. Underlying the elegant and captivating interior design, is an exploration of contemporary furniture, unexpected shapes, and matched materials play with the creative introduction of light design. The owner's suite charms with selected essences and details including two large portals that frame the hull-side windows, styling the abundant light as an element of design.

The Flybridge deck hosts three distinct and harmonious spots across the flush expanse with most of it under a convertible soft top giving the option for sun or shade. Forward and next to the wheelhouse is a large sun-bed that provides as much comfort as sun. In the center of the space is the dinette which is easily the favorite entertainment area, always keeping contact between the pilot and guests with the grill, ice maker, and refrigerator just port of the table. Aft is a very large open area equipped to hold lounge furniture for more sunbathing or additional entertaining.
