Location: Starboard

Summary/Description

2016 Scout 350 LXF powered by triple Yamaha F300's.

2016 Scout 350 LXF powered by triple Yamaha F300's

2016 Scout 350 LXF is unmistakable on the water with the Carolina flare and efficient hull design. She is built of 100% hand-laid fiberglass and built with technology that makes her lighter and stiffer than most boats in this class all while maintaining great ride, speed and fuel economy. While she is certainly a fishing machine, Scout's fit and finish provides the comfort to keep even the fair-weather fisherman and family happy and dry. This particular 2016 is loaded with options including 12-volt refrigeration, air conditioning, an interior cabin with berth and enclosed marine head, full Garmin suite of electronics including chartplotter, radar, depth sounder and much more. Please call for more details or to schedule a private showing.
