Summary/Description

Commissioned less than two years ago Dilligaf is a practically new Great Harbor TT 35, that would cost over \$400,000 to build today.

The Great Harbour TT 35 packs all the amenities of a comfortable live aboard trawler into a highly versatile, trailerable boat with endless possibilities. From local gunkholing to a Great Loop adventure, the TT 35 delivers. She features a center queen berth, head with separate shower and a fully equipped galley. Powered by ultra-efficient twin Suzuki outboards, she can take you wherever you want to go. Call for a showing today!

WALKTHROUGH - GREAT HARBOUR TT 35 - DILLIGAF

COCKPIT:

Entering the cockpit there is plenty of room for six people to relax on the two port and starboard seats. The swim platform is accessed from the cut-away transom, with twin outboard engines mounted on the port and starboard sides. At the forward bulkhead a sliding door offers access to the deck house along with an opening window to the galley. Two large lockers under the seats provide ample deck gear storage. The cockpit is protected from the sun and rain by an extension of the deck house hard top.

DECK HOUSE:

Entering the Deck House from the cockpit the galley is found to starboard, with a full-size refrigerator/freezer to port next to the door to the head. The galley includes a quartz countertop, sink, induction cooktop and microwave/convection oven. Under the counter there are drawers and lockers, along with a slide out spice rack and trash bin. Opposite the galley, the head includes a sink, electric marine toilet, and separate shower stall. Moving forward the salon features a dinette on the port side with a seating area opposite, followed by the helm forward. The dinette can seat four people and converts to a double berth. The back of the forward dinette seat can reverse to provide forward facing seating opposite the helm while underway. A flat screen TV is mounted on the aft bulkhead along with the AC vent.

The helm is forward on the starboard side and features the boat's operational controls, a sliding door for quick access to the foredeck and a fold down chair and footrest.

A teak and holly sole and wainscot paneling are found throughout the deckhouse, along with overhead LED lighting, 120 vac outlets, and windows providing 360 degree visibility.

FORWARD CABIN:

The forward cabin features a centerline, full queen berth, with drawers and lockers underneath, plus double hanging lockers along the aft bulkhead. Ventilation and light is provided by four opening port holes, an overhead hatch, AC vent and LED lights and lamps. Additional storage is provided by a large shelf and locker at the forward bulkhead along with anchor locker access.

DECK:

Surrounded by a sturdy aluminum rail, the foredeck is accessed along the port and starboard sides and by a sliding door at the helm. The deck features a bow mounted, roller furling anchor with electric windless and deck washdown. The cabin top houses the ships antennas, navigation lights, solar panels and tender.

UTILITY LOCKER

Located along the centerline of the boat and accessed from a hatch in the gally deck, the large utility locker houses the boats electrical and water systems.
