Specification

SEANFINITY - A Symphony Of Performance, Technological Innovation, Quality In Materials and Design

SEANFINITY was created Vincenzo Tuccio founder of Top System Surface Drive and Gianluca Caputi architect and yacht designer. With racing DNA the concept was to encapsulate everything to do with the Ocean and Infinity.

The end result emphasizes the best of everything to do with outdoor life on a boat. A versatile walk around design that is immediately recognizable by its elegance, aggressive exterior lines, luxurious design and volume of the interior spaces.

NOTABLE HIGHLIGHTS

- **Emphasizes Outdoor Life** – Easy walk around design with all the amenities to entertain and cruise as you wish.

- **Easy Lift Performance** - Electronic management software that automatically optimizes the performance of the outboard motors at the different speeds. The system processes the engine data and positions the lift at the desired height maximizing propeller performance.
- **Air Conditioning** - Cabin air conditioning available at the dock while on shore power and while underway by the service batteries.
- **Underwater Lights**
- **Lewmar Bow Thruster**
- **Lowrance DSC VHF**
- **JL Audio Media Master 50**
- **GARMIN GPSMAP 8610**
- **2x Isotherm Refrigerator**

OUTBOARD PROPULSION TOP SYSTEM EASY LIFT - With demand for high performance and speed, the desire to have 3 or more outboards is an every day demand. Top System created Easy Lift, an innovative control system for outboard motors that optimizes performance with multiple engines.

The system processes the engine data and positions the lift at the desired height maximizing propeller performance. Optimizing the performance of the outboard motors at the different speeds of the hull.

Using a touchscreen the driver can press "AUTO" on the display and the system starts monitoring and controlling the motors. The system can also be controlled manually via joysticks provided in the package.
