11KW

Summary/Description

Canados 431 Walk-Around

The Gladiator 431 brings a whole new meaning to speed, pleasure, comfort, safety, and sensations. There are very few boats on the market that can comfortably 40 knots, most of them will only reach this speed on dead flat waters. While the 431 is able to run hard in the rough in safety and comfort.

The goal of the 431 was to be able to combine the design of a sport line but also with ample area to enjoy yourself in the cockpit. She was designed and built to run fast but also her deck layout offers more space than any other boat on the market in her class.
