- Interceptor auto trim system
- Joystick and bow thruster
- Power folding and concealed Bimini top
- Power deploying teak swim platform w/beach cushion and storage
- Underwater lights
- 32" Apple TV with Blu-ray player
- Electric venetian blinds

Manufacturer Provided Description

The new Rivamare, a sleek, 39-ft speedboat designed the company's partners, Officina Italiana Design, who have carefully crafted a sporty silhouette while retaining Riva's signature high-class aesthetic.

The new speedboat is the worthy successor of masterworks like Aquariva Super and, before that, Aquarama: it combines the style and charm of these legendary models with the most cutting edge technologies, and offers the greatest care for every detail, together with a level of comfort and spaces never seen before in boats of this size.

There's handcrafted mahogany panelling across the front of the boat, which sits ahead of a fighter jet-like windscreen comprised of five double-curved crystal glass sections set in a stainless steel frame. Behind the glass is an array of premium seating and sundecks, and inside you'll find a kitchen, shower, and a living area that can convert into a double bed.

Power comes from a pair of D6 400 DPH Volvo Penta engines, each producing 400 mhp allowing the boat to travel at a cruising speed of 31 knots and can reach a top speed of 40 knots.

Extras

- Access to the swimming platform with fibreglass steps covered in anti-slip painted mahogany and stainless steel edge
- Adjustable searchlight in chromed brass on windshield
