OUR MOST ADVANCED HULL COATING EVER

We can apply Sea-Speed to the hull which is the most advanced next-generation silane based hard coating for boat hull application. Biocide free environmentally friendly bottom coat protection with low drag which improves speed and fuel efficiency. A flexible film that resists damage and wear while being 30% lighter than copper-based bottom paints. Comes with an industry-leading 10 year warranty.

About Schaefer Yachts

For over 30 years Schaefer Yachts in Brazil has produced more than 3,600 boats up to 83 feet, while setting a new standard of quality and innovation in the market. Unique in the industry, combining comfort with high technology, the boats produced by Schaefer Yachts impress at first glance. They stand out for their beauty, workmanship, sophistication and high performance which distinguish Schaefer Yachts above competitors.

With one of the biggest machining equipment in the Americas, Schaefer Yachts CNC guarantees accuracy in the production of all parts involved in the project. All parts are produced by a vacuum infusion process resulting in lightweight and sturdy vessels that provide a more comfortable, safe, and economical journey. With its own in-house woodwork, Schaefer Yachts found the solution to bring the finish and refinement desired in our boats. Refinement in workmanship and extreme attention to detail are featured in all Schaefer Yachts. Tastefully selected materials blend with true craftsmanship, resulting in an elegant line of yachts with fully customizable interior upholstery and features. With a vertically integrated production process, Schaefer Yachts guarantees timely delivery of your boat while attaining the highest quality standards.

The National Marine Manufacturers Association (NMMA) Certification program covers over 30 categories of standards and every Schaefer Yacht is built to these standards and tested before being imported into Canada and the USA.
