LOA including Pulpit and Swim Platform - 47' 7"

Length on Deck - 43'

8 kt Cruise 8 kts

Fast Cruise 18 kts

WOT 22 kts

While most do not consider a Silverton a trawler, you can certainly cruise at 8 knots just like one and yet, when you need to go fast at 20 knots to make a bridge opening or outrun some bad weather, you can do so.

With her cavernous interior, at anchor or at a dock, you would feel like you were in a condo. The 43 is a big boat for her length. it has an amazing flybridge and aft deck that could be called the "Back Porch". It's Saloon is expansive with wraparound cabin windows, light cherry woodwork, and high ceilings - giving on e the impression of being in a much bigger boat. Both staterooms are fitted with queen berths and both heads are split to separate the shower stalls from the toilets. Whether cruising as a couple or with guests aboard, you are in the boat that can accomodate all of your cruising dreams.

If you are looking to please your partner or impress your guests, this is the boat that will do it for you. You cannot beat cruising in total comfort.

Don't Let This One Get Away!
