Custom modification on this custom-ordered 2023 38 GLS:

- All Sea Strainers are multi-coated with clear epoxy to resist all corrosion. No green or other residue ever!
- For stereo enthusiasts, the rear speakers rather than facing rearwards, were installed facing forward to increase sound in the main body of the boat. Much better and fuller stereo sound.
- The controls for the stereo were installed in water resistant areas, ie: helm and cabin, to resist electrical shortage problems of the same components in areas exposed to rain and washdowns.
- Forward seating was custom factory fabricated to include 100% full sun pad coverage.
- The vessel was never exposed to rain.
- Vessel kept covered and in dry storage when not in use.
- Moon roof custom roof cover to protect underlying fabric and to retard soiling as well as sun fading.
- Vessel hand waxed once monthly.
- Batteries kept charged every 6 weeks when in dry storage.
