Summary/Description

Volume and layout of a much larger boat. Truly innovative and artistic design using beautiful Italian craftsmanship. On deck master, large VIP stateroom, office. Innovative upper deck. Heavily built displacement hull with bulbous bow that is built like a little ship to RINA classification.

Innovative and overbuilt is what best describes the Benetti Legend. Benetti wanted to prove they could build a smaller boat on the level of their superyachts and the result is a full displacement, bulbous bow, 85 ft. boat with the volume of many 100 footers and the systems typically found on much larger yachts. Consequently, the Benetti Legend model was a terrifically expensive boat for its size resulting in only a handful of these special yachts were built. A very capable boat for offshore cruising and difficult passages. An on-deck master makes it a rare find in vessels less than 100 ft. Exceptionally large and comfortable upper deck with forward and aft lounging areas, bar, large settee and dining table.

FULL SPECEFICATIONS

NOTEWORTHY FEATURES AT A GLANCE

- “ Displacement hull with bulbous bow
- “ Large interior volume
- “ On deck master
- “ Excellent exterior deck spaces for lounging
- “ Serious equipment list including:
 - *Zero speed stabilizers
 - *ASEA frequency converter for worldwide use
 - *Hamann sewage treatment system
- “ US Duty Paid
