Summary/Description

only 355 hours on her Mercruiser 496 MAG's. She has the joystick and Bravo 3 outdrives . Some of the upgrades completed in the last year include 3 new batteries, new starters, new bilge pump and a new windlass. This desirable model was just fully detailed, lower units painted and fresh bottom paint.

Price reduced by \$10,000, seller says make it the next Cobalt sold!!

Available immediately we have a 2009 Cobalt 323 with only 355 hours on her Mercruiser 496 MAG's. She has the joystick option and when used with the Bravo 3 outdrives the system is very responsive. Some of the upgrades completed in the last year include 3 new batteries, new starters, new bilge pump and a new windlass. This desirable model was just fully detailed, lower units painted and fresh bottom paint.

Here comes the 323, a go-anywhere and do-anything amalgam of functionality and flat-out style, a watercraft for the undecided. For sure. The 323 is all things to all people,: a true dayboat ready for unforgettable exchanges of sunshine and moonlight. Meantime, the 323 brings along all the comforts, all the convenience appropriate to the best evenings away from home. Day and night, night or day, here's outer-spatial roominess; here are amenities central to the enjoyment of family and friends, to the thoughtful use of multiple cubic-feet imaginatively used bow to stern. The room begins in the raising of the 323's deck, up a full four inches over its sister ship the 302, thereby multiplying walkabout in the cabin, ensuring easy access and comfortable use. "Entertaining" is a pivotal word in the 323's mission statement, and so the cockpit fans out from a hot-water sink and refrigerator with a built-in ice chest nearby.
