## DESCRIPTIONS

The new series will undoubtedly attract boat enthusiasts seeking the adventurous touch that the smaller Axopar models offer, but with extra volume and physical deck space. The new range provides an excellent alternative to bigger and more expensive yachts as the 45 range boasts a yacht's luxuries and handling without the price tag or maintenance commitment.

And the best part? The boat is one of the most economical 45-footers on the market. Powered by triple Mercury V8 300 Verado engines, the Axopar 45 can cruise at speeds between 19 and 35 knots while remaining in the most cost-effective range. The advanced infusion lamination method used to manufacture hull, deck, and stringer systems that result in a lighter and more fuel-efficient boat.

From an Intelligent Steering Module that controls the bow thruster, trim tabs, and audio, to innovative Simrad navigational touchscreen displays with a custom built Axopar User Interface, the Axopar 45 is fitted with impressive technological features to ensure the best-in-class manoeuvrability and handling. These integrated functions make the cockpit remarkably clean and leave the dashboard neat and clutter-free.

Standard features on the Axopar 45 XC Cross Cabin include features such as the gullwing doors that forge a seamless connection with the outdoors and an adjustable wet bar and table in the cabin for more flexible use of space. Open the dual electric sliding canvas roofs and double sliding doors to let in the sea breeze and sun's warming rays. Alternatively, close the doors and roofs to relax in the shade, or instantly be protected from the elements.

The midship balconies are conducive for getting on and off the boat with ease, creating more space, and can transform into a sociable seating area that connects to the spacious cabin when the sliding doors are open. This combination makes the 45 XC one of the most multifunctional and sociable boats on the market.

## Mechanical Disclaimer

Engine and generator hours are as of the date of the original listing and are a representation of what the listing broker is told by the owner and/or actual reading of the engine hour meters. The broker cannot guarantee the true hours. It is the responsibility of the purchaser and/or his agent to verify engine hours, warranties implied or otherwise and major overhauls as well as all other representations noted on the listing brochure.
