Manufacturer Provided Description

The 390 is much more than fierce, it boasts all of Intrepid's hallmark innovations. Outboard engines give you extra space, along with low-cost reliability – not to mention the zip, the convenience, and the quiet ride. Engine noise and vibration are dramatically reduced, and you never have to deal with the smoke and fuel odor with outboard motors. As your sport yacht passengers relax in the salon-like atmosphere of our signature lounge seating, the sure-footed quickness and precision handling inspire absolute calm and unruffled confidence.

The triple outboards power your Intrepid smoothly up on plane thanks to the aerodynamically designed cockpit, and optional fiberglass top, which brings engine and wind noise down to a quiet whisper that your passengers will appreciate.
