One Shot is a fast-cruising, light and sophisticated sailing yacht, providing the perfect combination of performance and comfort. This new 68' is the result of the experience gained by Solaris Yachts in the design and construction of vessels for long-range navigation. Responsible for the project is

One Shot is a fast-cruising, light and sophisticated sailing yacht, providing the perfect combination of performance and comfort. This new 68' is the result of the experience gained by Solaris Yachts in the design and construction of vessels for long-range navigation. Responsible for the project is Javier Soto Acebal, one of the most reputed naval architects.

Her outstanding performance comes from an optimised composite hull, new generation carbon mast, boom and rigging, with state-of-the-art sail handling. The raised deckhouse is ideal for relaxing and allows the interior to be bright and sunny. Her timeless, classic design boasts a generous amount of space in the interior lounging spaces, the 2 aft guest cabins and the front master cabin. Her high-end light walnut furnishings create a soft, refined and welcoming atmosphere in the interiors.
