Summary/Description

Diesel with saildrive, grey non-skid deck, North Sails, opening ports, Flexiteek floor, V-berth package and B&G Triton2 displays for speed/depth/wind pack.

Responding to a growing need amongst sailors for a more comfortable, simpler and easy-to-own daysailer, the sleek, new 28-foot J/9 has perhaps the most comfortable cockpit and easiest-to-manage sailplan in this size range. The cockpit has four great corner seats to nestle into and enjoy the day. With friends and family aboard, everyone can find the perfect place to relax. And access aboard has never been easier. A swim platform behind the cockpit allows walk-through boarding, and on those downwind sails home, you can cool off by dragging your feet in the water.

Our in-stock model comes with diesel with saildrive, grey deck, comfort group, North Sails, opening ports, Flexiteek floor, V-berth, Trim package, B&G Triton2 display, and grey boot stripe.
