Hunter Marine's 38 is an evolutionary boat that comes from the finest of innovation and consumer input Hunter has ever had. Comfort, convenience and livability are what the 38 is all about. Abundant natural light streams in from the Hunter signature windshield as well as the many fixed and screened ports; not to mention the multiple overhead hatches, which also admit a tremendous amount of fresh air. At anchor or at the dock, the placement of the ports assures you of great ventilation, and obviously, reverse cycle air and heat are an optional choice for your cruising comfort.

Entertaining or handling the family is easy with the enlarged salon complete with a convertible dinette and facing settee. Storage is plentiful as is electronic space at the integrated nav-station. A Corian® covered, full-service galley comes complete right down to the dishware and any chef will adore the side-by-side ice boxes and top-loading trash bin set each side of the double basin, stainless sink.

The private forward stateroom includes an ensuite vanity with sink and storage as well as plenty of hanging locker space and drawer storage. Aft, you'll find the master stateroom with a huge queen berth and more storage. Privacy is enhanced by the dual access head that offers a Corian® covered vanity and shower stall all wrapped in a complete fiberglass shell for easy cleaning and maintenance. A tri-cabin version is also available for those who want to accommodate even more family or friends. On deck, the cockpit is designed for the comfort of the skipper and crew, not for the ease of the builder. By bringing the coaming out to the gunnels, Hunter has increased the overall space to incredible proportions to include seating for eight. A custom console with folding table leaves is perfect for those alfresco meals. Take the time to compare the innovations, comfort, performance and with the competition and then compare the value. We know you'll be impressed.
