"Born from a passion for fishing, the Tarpon Bay 19 is designed to combine efficiency, comfort, and stability, all while providing a dry and quiet ride for you and your passengers. The boat navigates open waters with ease due to a uniquely designed bow coupled with full length return sheer lines that tame even the nastiest chop. The foam-filled unsinkable hull is extremely stealthy, so your fish will still be there upon your arrival to the honey hole. A meager 10 inch draft while loaded, means you're getting into those skinny waters with ease. The hull is built using the highest quality materials, while vacuum-infusion construction ensures your Tarpon Bay 19 will be rock solid for the life of the vessel."
