Forepeak

The fore peak contains a guest stateroom with bunk berths present. The ceiling and walls have padded coverings installed with quality carpet installed on the deck. There are teak doors, closets, trim and moldings present to finish the room. The closets are lined with cedar paneling and a Cruise Air system is present.

Forward Cabin

The forward cabin has a master stateroom, guest stateroom, day bunks, tackle storage closet and two heads with showers. The fore peak contains the guest stateroom. On the port side is the master stateroom with private head and shower. Along the starboard side is the day bunks and the public head and shower. The ceilings and walls have padded coverings installed with quality carpet installed on the decks. Teak doors, cabinets, trim and moldings are present to finish the forward cabin. The staterooms have Cruise Air systems, cedar-lined closets and fitted mattresses/comforters.

Head and shower

The vessel is equipped with two heads with showers, one private and one public. They are equipped with standard fiberglass showers, Raritan toilets and standard fixtures. The ceilings and walls have quality wallpaper installed and the decks have finished teak and holly inlays. Corian tops, exhaust fans and mirrors are present as well.

Salon

The salon is a large area with numerous systems and amenities. The galley is located in the forward, port section and a

bait freezer in the forward, starboard. The salon has custom crafted sofas with storage underneath in the aft, port section and along the starboard side.

A small cabinet with Corian top is present in the aft, starboard corner, which contain the electrical panels. These panels control all systems throughout the vessel. Quality carpet is installed on the decks in the salon. Teak doors, cabinets, trim and moldings are present to finish the room.

Galley

The galley is located in the forward, port section of the salon. The galley contains two sets of Haier refrigerator/freezer units with stainless-steel faces, Princess surface range, LG microwave, sink and other kitchen appliances. All appliances are contained in custom teak cabinetry with Corian tops. The deck of the galley has finished teak and holly inlays present.

Bridge

The bridge has a console that extends from port to the center of the deck.

The console contains all of the navigation electronics, engine controls and an electrical panel. There is seating on the forward section of the console and along the starboard side with storage underneath. Two custom teak helm chairs are present in the bridge as well. All seating has custom cushions present. An aluminum frame is present, which supports a fiberglass hardtop. Isinglass curtains surround much of the bridge and a belly band is present in the aft section. Rod holders are welded to the belly band. The decks of the bridge are coated with white Awl-Grip paint with a non-skid texture applied.

Cockpit

The cockpit is a large open area. There is a teak fight chair with rocket launcher and foot rest located in the center of the deck. The forward section of the cockpit has insulated boxes present along with freezer on the port side and engine controls on the starboard side. A transom fish box and door are present along with rod holders mounted. The bridge, cabin, engine room and lazarette are accessed through the cockpit. The bow deck and outriggers can also be accessed on either side of the cockpit. The cockpit has natural teak installed on the washboards, coaming pads and decks.
