Electricity

230 - 240V 50Hz

All 240V, 24V & 12V circuits (where applicable) protected by circuit breakers with main electrical load control panel

Heavy duty circuit breakers

Isolating switches to all batteries

Onan® 22.5kW generator

UPGRADED 10 x Lithium Ion Battery Setup including 2 Victron Quattro 8000w – Battery Charging via Main Engines whilst cruising.

Emergency battery coupling system permits each engine to start from opposite battery bank

Inverter

Isolation summation transformer

240 Volt

Polarity check & earth leakage protection system

Power points throughout fed from shore power or generator

Shore power supply line
