Summary/Description

The 'MiTi Navi' series of semi-production sailing yachts are built in steel and intended to combine European superyacht standards of construction management, equipment and luxury with traditional Turkish craftsmanship.

Designed for and with an experienced sailor and knowledgeable yacht owner, the sailing yacht Miti One was built in high grade steel by renown Oguz Marin shipyard in Bodrum and delivered in June 2021 as a unique, fully custom sailing yacht, perfectly combining the pleasure of pure sailing and the comfort of a large and modern luxury yacht.

Commercially registered under the Malta flag and built according to the Rina classification for long range navigation, S/Y Miti One is already a very successful charter yacht which has just been launched from the shipyard after finalising her last warranty works.

This wide and cozy cruising sailing yacht with very modern design offers an impressive interior volume of 198 GT with a very clever layout and interior arrangement. Her main saloon hosts a 10 guests dining table, a lounge area and a fully equipped bar. She can accommodate up to 11 guests in 5 luxury cabins, including a vast Master cabin with ensuite bathroom, 3 VIP cabins and 1 Twin.

On her 8.4m wide aft deck, a huge sunbed overlooks a wonderful "al fresco" dining area for up to 12 guests, while the fore deck also offers an attractive sunbed with an amazing 180° sea view. A 3.5m bowsprit adds style to her elegant design, while improving her sailing performance. S/Y Miti One has a "Ketch" rigging with 2 tall aluminium masts. Her main mast of 30m and the mizen mast of 23m, together can display a total of 520m² of Prisma sails.

Thanks to her hull design and 3.55m draft, S/Y Miti One is a very stable and seaworthy yacht, ensuring great comfort to her guests while navigating or at anchor.

Equipped with 2 x Baudoin diesel engines of 450hp each, this very economical and eco-friendly yacht can reach a top speed of 13 knots and can cruise smoothly at 9 knots, burning only 64 liters per hour and allowing a range of 2,000 nautical miles.

Her flexible solar panels laying on the hard-top and roof can provide 5kw and a Hamman sewage treatment system helps her respect even more the environment and her guests' well-being.

Designed and built to provide maximum pleasure and fun to her guests, S/Y Miti One owns a powerful 5.2m tender capable of towing water-skiers, wake-boarders and the many towable toys available on board. Many other toys, including 2 Yamaha Seawing II and 2 paddle boards are at the guests' disposal.

Presented in immaculate condition and offered at a very attractive price, S/Y Miti One is definitely the best choice for sensible sailing lovers who demand the highest safety and comfort and care about elegance and style.

ADDITIONAL / ENVIRONMENTAL FEATURES

- Solar panels with total power of 4.5kw
- Economical engines (burning only 64 L/hour at cruising speed)
