Manufacturer's Description

LOOK COOL AND STAY COOL

FORM & FUNCTION FUSED TOGETHER

Why let extreme hot weather curtail your boating enjoyment? Now you don't have to with Axopar's smart-thinking 28 T-Top.

A highly versatile, multi-purpose, walkaround sport cruiser, form & function have fused together to create the Axopar 28 T-Top, successfully screening the front and rear passengers from the less pleasant effects of too much sun.

The Axopar 28 is a multifunctional craft with unmistakable modern style combined with an agile and fuel efficient hull. The versatile and easy to handle walkaround cruiser has plenty of room thanks to its spacious configuration for sun-bathing, water-sports, fishing, socializing or just cruising the coast.

Responsive handling and safe mannerisms make driving as simple and intuitive as behind the wheel of a modern car. The twin-step, low centre of gravity hull with deep-vee configuration assure good directional stability and fantastic grip during cornering.
