Westerbeke

Summary/Description

Preliminary listing more details and pictures to follow. Bring all offers!

This unique performance cruiser was designed by German Frers and built by the high-quality shipbuilders Kong & Halvorsen. The lines of this vessel are timeless which will attract the experienced yachtsman looking for the proper vessel, not off the mass production line of today's weekend boats. Note the similar lines from Bristol, Swan, and Little Harbor when view this yacht. Its beamy design provides excellent deck and interior space. The center cockpit offers outstanding protection, all-around visibility, and accessibility. The sail plan and rigging are configured for power for easy management while shifting gears through the different weather conditions. Extended cruising would be very comfortable for a couple or a family on this yacht!
