Year: 1997

Location: Middle

Summary/Description

Classic, clean Catalina!

The Catalina 36 MkII is the most refined version of what may be the most popular boat of her size ever built. With over 2300 hulls built, the Catalina 36 and her variants deliver comfort, value, and solid sailing performance. *About Time* represents the final iteration of the 36, offering a sought after sugar-scoop transom, updated interior design, and easily managed sailplan.

About Time boasts detailed maintenance records and a history of thoughtful upgrades. A clean, well-maintained interior and exterior reflects prideful ownership, and as her owners prepare to upgrade, she is ready for you right now.

Her private, two-cabin layout is ideal for weekend cruising and longer trips alike, and she is outfitted to be easily sailed with a crew or conveniently short/single-handed. *About Time* has a refrigerator/freezer, air conditioning, and an electric windlass for comfort and convenience, and her interior layout boasts a full thickness teak and holly sole, satin-varnished teak bulkheads and furnishings, and 6' 5" standing headroom in her main salon. A bulkhead mounted saloon table folds up and out of the way, while a smaller starboard side table can be reconfigured as a second settee--a design change so successful, it is still featured on new Catalinas to this day. With her shoal-draft wing keel, she'll get into any harbor and still produce modest performance when sailing to weather.

Features and upgrades include:

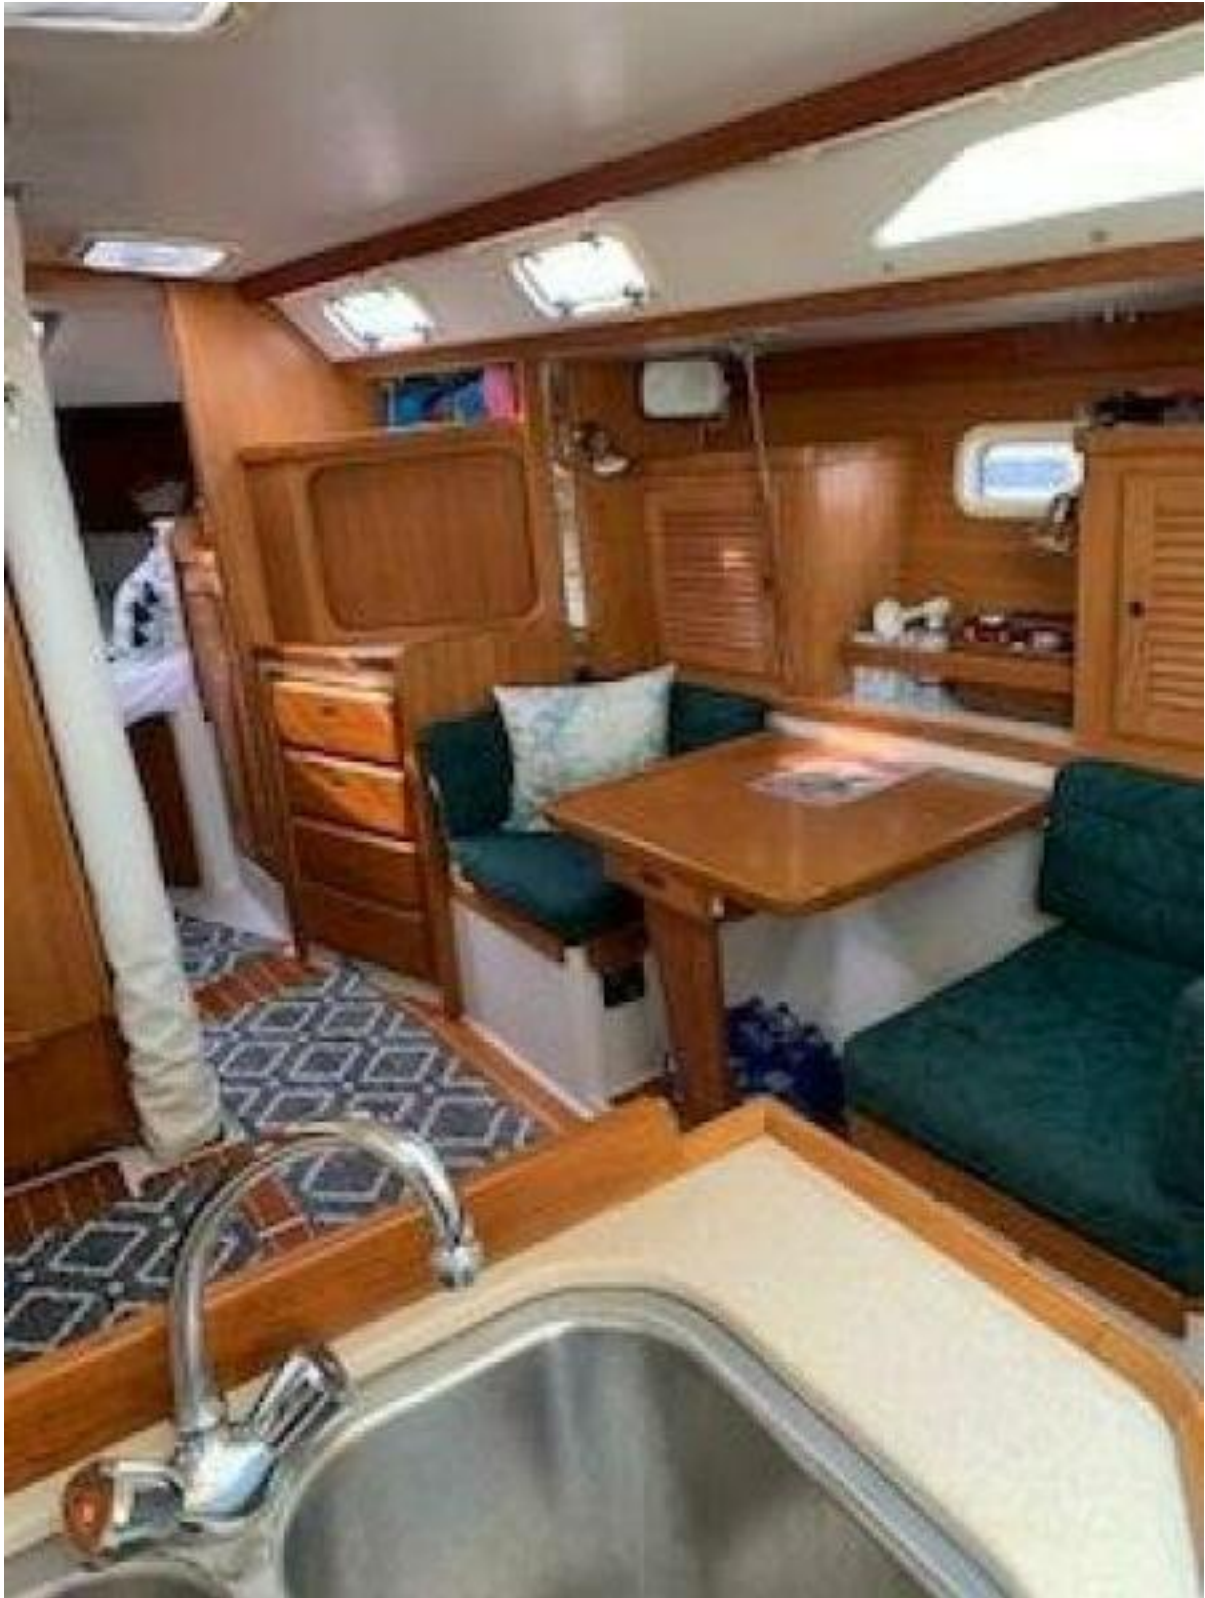

- Bottom blast, new barrier coat and antifouling (2022)
- Dutchman flaking system with new filament
- North Sails main (2016)
- North Sail 135% working jib (2015)
- Garmin GPSMap 734 at helm (2023)
- Garmin VHF 215 w/AIS and remote station wired mic (2023)
- New bimini and dodger with stratoglass panels and connector (2021)
- New fuel tank (2017)
- Dual shore power connections (1-bow, 1-stern)
- And so much more!

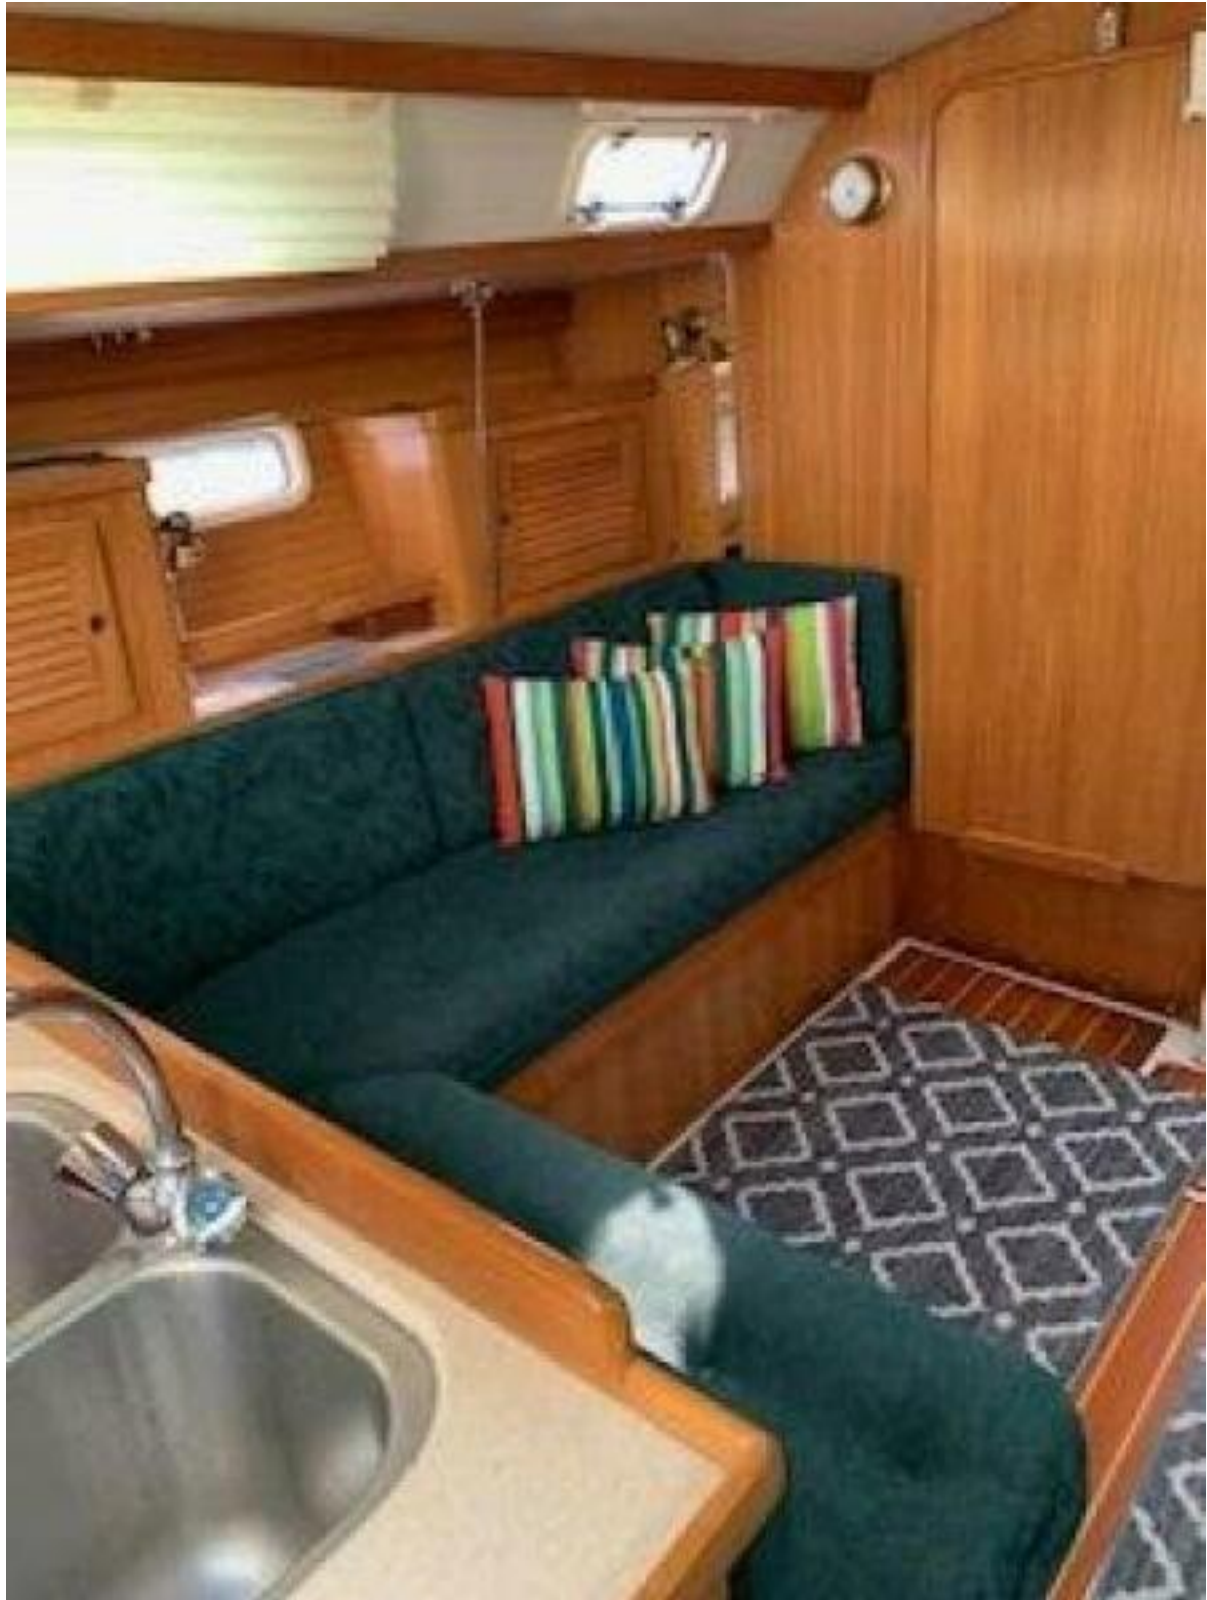

About Time will impress you--call to get aboard today!

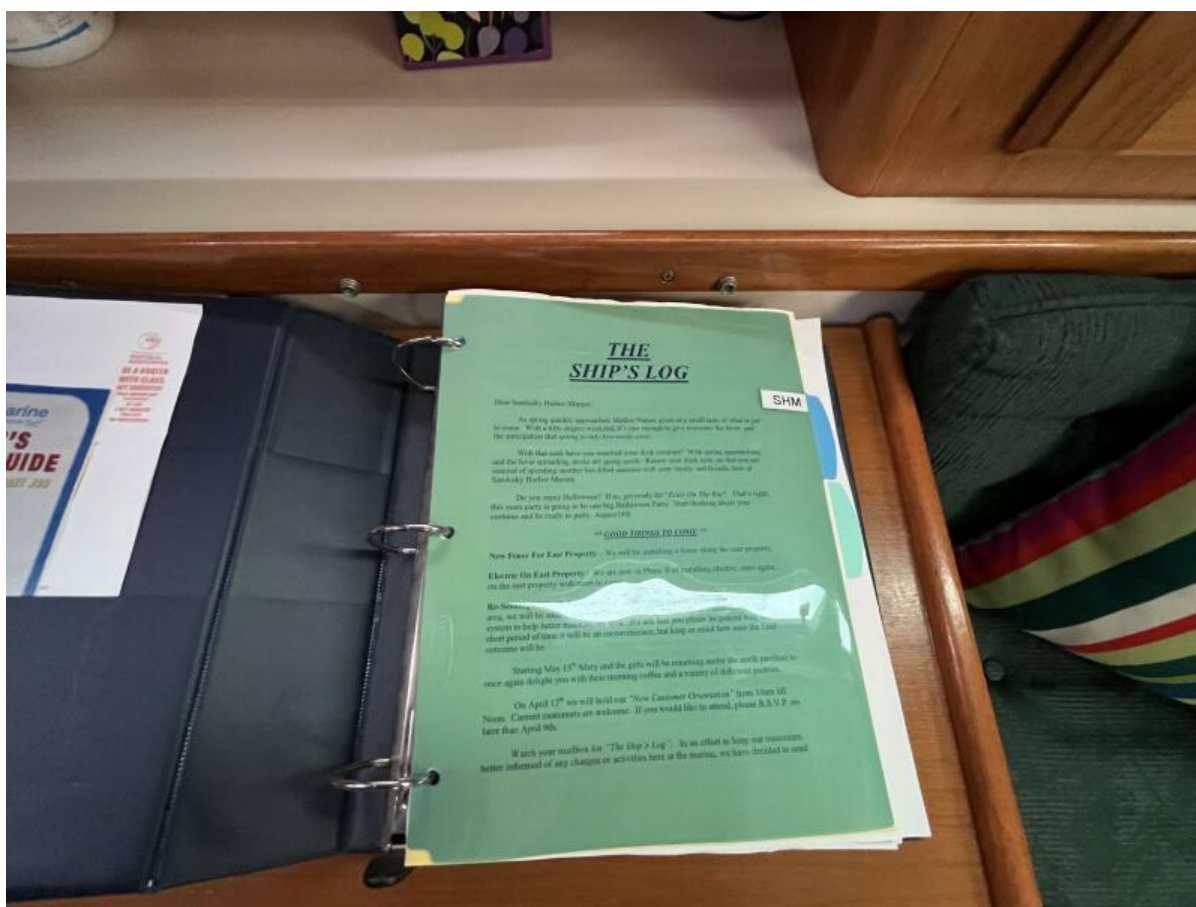

List Year:

near souppers in cockpit area
carens exposed to weather
and store below
fing line and other lines/sheets available
ets, cover w/ dark plastic bag, open bottom

is hanging in anchor locker for ventilation
e not to chafe on mast
by Boards w winter board
