Location: Middle

Summary/Description

Well-maintained wing keel boat with a shoal draft of 3.5 ft. This 27ft long vessel effortlessly combines performance and comfort, ensuring an exceptional sailing experience. Upgraded blocks, mast, running, and standing rigging enhance its capabilities. Conveniently located at Lake Ray Hubbard Dalla

DESCRIPTION

The Catalina 270 was designed to provide rewarding performance and comfortable accommodations for the active sailing enthusiast. Both goals are accomplished through the selection of a stable hull form with a generous beam and fine entry forward. This approach delivers a hull that is wide at the sheer for maximum deck space, reserve buoyancy, and good performance to weather.

Keel: The elliptical wing keel (Shoal Draft 3.5 ft) is matched with a balanced elliptical rudder to ensure predictable handling and a balanced helm in various conditions.

Rigging: Double spreaders rigging with fore and AFT lowers which make the mast very stable, and easy to set up and tune. This design provides the narrow shroud base necessary for proper genoa sheeting to weather.

Deck: Highlighted by a “big boat” cockpit with Catalina’s hallmark full-length cockpit seats with ergonomically contoured seat backs necessary for long-term comfort aboard.

Cabin: In the cabin, comfortable seating around the varnished teak table provides a great place for meals, relaxing, reading, or playing games.

Galley: Well-planned for the cook, With special attention given to usable storage, a large ice box, and a flip-up counter over the two-burner stove.

Head: The head is a single-piece molded unit that is easy to keep clean and fresh. In the sole is a standard shower pan.

Master Cabin: By night the AFT cabin is a private and comfortable retreat for two. The berth forward can be extended and enclosed for two. with the settees functioning well as single berths.

To provide more time for owners to enjoy sailing the 270, low-maintenance materials have been used on deck and mechanical systems have been designed for easy access for service. Quality materials and an engineered structural

system carefully assembled promise the 270 to be durable, reliable, and a pleasure to own for many years to come.

Mechanical Disclaimer

Engine and generator hours are as of the date of the original listing and are a representation of what the listing broker is told by the owner and/or actual reading of the engine hour meters. The broker cannot guarantee the true hours. It is the responsibility of the purchaser and/or his agent to verify engine hours, warranties implied or otherwise and major overhauls as well as all other representations noted on the listing brochure.

Disclaimer

The company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.
