The Legacy 36 has features to impress the most discerning yachtsman - performance with low fuel consumption, a refined interior with accommodations options, unrivaled dependability with high end components, comfort underway with a proven hull shape, and all of this with poise and a timeless grace. Using the best build practices and an electronically controlled engine, the Legacy 36 looks to lead in her class. The helmdeck salon beckons you aboard while the luxurious, handcrafted interiors make you want to never leave. The hull design uses a modified deep V hull with wide chine flats and centerline flats extending aft to produce a sea kindly hull that gets up on plane at low speeds. This combination has proven its ability to deliver a yacht with great performance and handling characteristics along with excellent fuel efficiency.
