Summary/Description

If you are in the market for a comfortable Double Cabin Diesel Powered Motoryacht at a price that won't break the bank then this one should be on your must see list. She has lots of interior and exterior live-ability and would make a great floating condo or coastal cruiser. Recent engine service

If you are in the market for a comfortable Double Cabin Diesel Powered Motoryacht at a price that won't break the bank then this one should be on your must see list. She has lots of interior and exterior live-ability and would make a great floating condo or coastal cruiser. Recent engine service and fresh bottom paint make her ready for its next owner. Call today and start packing your duffle bags for some quality time on the water!

General Vessel Description

The San Remo was the first motor yacht to bear the Wellcraft name since the Californian series was spun off several years before. She uses the Portofino's modified-V hull with prop pockets and exhaust tunnels on the hullsides. The San Remo's lines are low and sleek in spite of her raised deckhouse configuration, and her euro-style reverse transom is especially attractive. Below, the interior is quite expansive with an emphasis placed on the stylish main salon that also features a bar area. The San Remo is a perfect size for a floating condo, a coastal cruising yacht or doing the Great Loop.
