Summary/Description

The C8 is a purpose-built, rapid commuter vessel, constructed to equally meet the needs of year-round commuters, active day-trippers or those planning shorter, staged journeys with overnight stays.

Like its siblings the C8 has a wide walk-around design which contributes to extra freedom of movement and makes it easy to move around onboard.

Thanks to its easy-to-use, functional and agile design, it is the perfect choice for those who want to use their boat daily, regardless of the weather. In the C8, priority is given to space, surfaces and functionality that provide the best possible moveability and a feeling of freedom on board. The result is easily-accessible storage spaces, wide walkways, large sliding doors and wide passages.
