The Shannon Shoalsailer 35 handles well under power and is easily sailed by a shorthanded crew. In the sub-genre of beachable cruising sailboats, this boat is unique. The vessel's interior isn't compromised by keel-raising or housing mechanisms, and the generous cockpit is a true anomaly among monohulls this length. Additionally, this is the one single-hulled sailboat that could safely venture across a large span of shoal water like the Grand Bahamas Banks, or certain reaches of the Chesapeake Bay under sail.
