Contact listing broker for an extensive list of systems and equipment aboard.

Broker's Comments

I have personally inspected the boat and have been impressed with her excellent condition. A qualified marine surveyor would find very little to dislike about the boat. The owners are understandably proud of her state and indicate that at a mutually agreeable price, they will deliver the vessel 'defect-free'. I've been asked, 'What does she need?'. The seller states that although the common area is air conditioned, the sleeping cabins are not, as it was formerly operated only in Canadian waters. The owner has 20+ new mini-split heaters / air conditioners aboard and ready to be installed. Sellers now own two boats, so are motivated. Reasonable offers, trades and creative situations considered.

Owner wants an offer. Maybe USD\$2M ?
