Fuel: Gas/Petrol

Year: 2024

Location: Starboard

Summary/Description

With its unique combination of performance, seaworthiness, comfort and iconic design, the new FJORD 39 is once again a real highlight on the water. Two 400 hp V10 Mercury Verado outboard engines provide more than sufficient thrust, agility and impressive performance in all conditions at all times.

With its unique combination of performance, seaworthiness, comfort and iconic design from the collaboration between the designers at Hanse Yachts and the renowned yacht designer Patrick Banfield, the new FJORD 39 is once again a real highlight on the water. Two 400 hp V10 Mercury Verado outboard engines provide more than sufficient thrust, agility and impressive performance in all conditions at all times.

Every aspect of the FJORD 39's design epitomizes power, stability, safety and durability. From the reinforced hull construction to the robust materials used throughout, the yacht is built to withstand a wide range of conditions.

The impressively generous dimensions on deck with the large and open cockpit of the FJORD 39 offer unrivalled space for a comfortable lounge and maximum freedom of movement. When the two generous tables in the seating area for up to eight people are lowered, a second large sunbathing area is created. Like all FJORD yachts, the new model offers the perfect setting for a cozy sundowner or a glamorous cocktail party under the sun.

Modern navigation equipment and joystick steering make maneuvering easy and intuitive. Even at full speed, the characteristic T-top, which is also the largest in this class and provides plenty of shade, and various windscreen options protect against the elements.

Below deck, too, the designers have maximized the available space and ensured that every square foot serves a purpose. The interior has been significantly upgraded compared to the FJORD 38 and sets new standards in this boat class.

Andrea Zambonini, FJORD Product Manager: "The FJORD 39 is the logical new development of our entry-level model in the unique FJORD class. It offers everything that characterizes the core of these iconic yachts. Power, design and comfort - fully thought through and high quality."

Propulsion

- 2 Mercury Verado V10 400 hp, white, with 7" digital indicator incl. VesselLink, tilt steering, engine active trim system, joystick incl. autopilot and SKYHOOK
- 1st Mate - Marine Safety & Security System with captain and 6 passengers wearable FOB kit and mobile VesselView
